

CFHB

JOB NAME:

FIXTURE TYPE:

COMPACT FLUORESCENT HIGH BAY

FEATURES

- Compact fluorescent alternative to HID hi-bay applications. Instant on eliminating the need for quartz restrike, plus the capabilities for multi-switching, dimming and emergency modes.
- Utilizes 4, 6, or 8 lamps in 26W, 32W, 36W or 42W highly efficient compact fluorescent lamps.
- Ideal for warehouses, cafeterias, gymnasiums or any application where dimming or multi-level switching is preferred.
- Reflectors available in 12", 16" and 22" diameters to meet a variety of distributions.
- Engineered ballast compartment for maximum heat dissipation.
- Wide variety of lenses and wire guards to meet virtually any lighting requirement.

SPECIFICATIONS

- **HOUSING**
Round die cast housing
- **BALLAST/MOUNTING**
Energy Efficient Electronic Ballasts are standard. Optional dimming ballasts. Standard with ½" hub for pendant mounting. Optional hook, cord and plug.
- **REFLECTOR/REFRACTOR**
Acrylic refractor is standard.
- **CERTIFICATION**
All units bear UL and Made in U.S.A. labels. Suitable for damp locations.
