

# 7200

JOB NAME:

FIXTURE TYPE:

## ***SURFACE MODULES***

### **FEATURES**

- Shallow design surface module available in 1x2, 1x4, 1x8, 2x2, and 2x4 sizes in 2, 3, 4, and 6 lamp configurations in T8, T5, and BIAx.
- End and side seams are welded and filled to provide the appearance of a smooth continuous channel.
- Flush steel doorframe is standard. Optional glare dampening ribbed aluminum regressed frame.
- Doorframe opens from either side and is secured by rotary cam latches.
- For surface and pendant mounting individually or in continuous rows.
- Available with energy efficient reflectors in specular silver (95% reflectance) or specular aluminum (85% reflectance).

### **SPECIFICATIONS**

- **HOUSING**  
Die formed heavy gauge steel housing welded for rigidity and structural stability.
- **ELECTRICAL**  
Electronic HPF ballasts comply with Federal Energy Efficiency standards.
- **SHIELDING**  
100% virgin acrylic prismatic is standard. Consult option sheet for other shieldings.
- **FINISH**  
All metal parts are phosphate coated and painted after fabrication with baked white enamel electrostatically applied providing a durable finish with a minimum 89% reflectance.
- **CERTIFICATION**  
All units bear UL and Made in U.S.A. labels.
