

# RWW

JOB NAME:

FIXTURE TYPE:

## **RECESSED WALL WASH GRID TROFFER**

### **FEATURES**

- Linear Wall Wash unit utilizes a unique “kicker” reflector to provide maximum wall illumination with minimum glare. Eliminates hot spots and shadows on vertical surfaces.
- High performance specular reflector provides 95% reflectance and is designed to shield the lamp from room side and 9 degree cut-off from wall side.
- Fixture housing flanges rolled to eliminate sharp edges.
- Engineered ballast compartment for maximum heat dissipation.
- Available with open bottom or with semi-specular cross baffle for a softer wash.

### **SPECIFICATIONS**

- **HOUSING**  
Die formed Code gauge steel unitized into one piece. The reflector is anodized aluminum.
- **ELECTRICAL**  
Electronic, HPF ballasts comply with Federal Energy Efficiency standards.
- **FINISH**  
All parts are painted with high gloss baked white enamel with minimum 89% reflectance applied over iron phosphate pretreatment for maximum adhesion and rust resistance.
- **CERTIFICATION**  
All units bear UL, and Made in U.S.A. labels.
